Hi – here is what I found in HBCD, can you send to OPPT to correct it in the RE document? Page 21

As per EPA's final rule, *Procedures for Chemical Risk Evaluation Under the Amended Toxic Substances Control Act* (82 FR 33726), this draft risk evaluation will be subject to both public comment and peer review, which are distinct but related processes. EPA is providing 45 days for public comment on any and all aspects of this draft risk evaluation, including the submission of any additional information that might be relevant to the science underlying the risk evaluation and the outcome of the systematic review associated with HBCD. This satisfies TSCA section 6(b)(4)(H) which requires the EPA to provide public notice and an opportunity for comment on a draft risk evaluation prior to publishing a final risk evaluation.

Please see the redline addressing comments. Charlotte, OPPT has responded to your question, re: the comment period, as follows. Let me know if this works:

Ex. 5 Deliberative Process (DP)

Susanna W. Blair, PhD
Special Assistant - Office of Pollution Prevention and Toxics
202.564.4371 (office) | 202.322.0538 (cell) | Blair.susanna@epa.gov

Subject: FW: For review FW: 2019 annual plan

Please see Charlotte's comments below. You have everyone's now. Alex did not have comments.

Hi. Attached for review is a draft 2019 Annual Plan required by TSCA. OPPT is looking to post this as soon as possible since it is due at the beginning of the calendar year. Kris, please print for the binders/folders. Thanks.

M

Background: Section 26(n) of amended TSCA requires the EPA to publish an annual plan at the beginning of each calendar year that identifies the chemical substances for which risk evaluations are expected to be initiated or completed that year and the resources necessary for their completion, describes the status of each risk evaluation that has been initiated but not yet completed, and includes an updated schedule for completion of risk evaluations, if appropriate.
